ESTABLISHED 1892

HODGINS NURSERIES
PTY.
LTD.

ESSENDON, W.5

Special Notices and Terms of Business

ORDERS

should have distinctly written thereon in BLOCK LETTERS full name and address of the sender, together with advice as to the route by which the goods are to be forwarded. ORDERS BY POST receive our best attention, and customers unable to make a personal call may rely on obtaining plants selected with the greatest care. Very liberal treatment is given in such cases.

NEW CUSTOMERS.

From unknown correspondents we expect a remittance with order, or a satisfactory reference to some Melbourne firm. Attention to this remark will prevent much disappointment and loss of time in correspondence. In remitting small amounts prior to receipt of Invoice, customers are requested to allow for packing and carriage, which will always be as moderate as possible.

PAYMENTS

may be made by Money Order (payable at Essendon), or by cheque (exchange must be added to country and interstate cheques). Small accounts may be paid by postal notes or stamps. All accounts are due nett within three months of date of Invoice.

TERMS OF SALE.

The greatest possible care is taken to ensure all orders being executed correctly, and every tree, plant, or shrub leaves our Nursery in perfect condition. We cannot, however, be held responsible for the productiveness of any plants, trees, or shrubs or other goods sent out, nor will we be responsible for failures, as we cannot be answerable for weather conditions or after-treatment.

PRICES.

Prices throughout this catalogue are for single plants, unless expressly stated to be otherwise.

COMPLAINTS.

We are most particular in growing and supplying all stock absolutely true to name. At the same time we accept no responsibility beyond replacing any item at fault, or making allowance not exceeding the amount charged for the article or articles. No complaints or allowances can be entertained unless made within 14 days from date of Invoice.

DELIVERY.

All goods are delivered free to Wharfs, Railway Stations, or Carriers' Offices, after which our responsibility ceases, and goods travel at risk and expense of purchaser. We deliver free by motor weekly to all inner suburbs, and shall be pleased to make special arrangements for delivering large orders anywhere.

We would esteem it a favour if clients would give their DISTRICT ADDRESS as well as Postal Address, when ordering, in order to facilitate delivery.

DESPATCH.

All orders are despatched as soon as possible after receipt, and should any delay necessarily occur, clients will be advised at once. Promptness in the despatch of orders is always observed.

In the interests of our clients we refrain from despatching plants, bulbs, etc., except during the recognised period for removal.

Orders received during unsuitable times for lifting or planting shall be booked for delivery at the proper season, and Clients advised accordingly.

RECOMMENDATIONS.

We are very grateful to our numerous customers who kindly recommend our plants to their friends. We shall be glad to forward copies of our catalogue upon receipt of name and address.

VISITORS

are invited to call at our Essendon and Greensborough Nurseries to satisfy themselves of the good quality of our stocks.

Our Essendon Nursery is situated in Moreland Road, directly opposite the new gas holder of the Metropolitan Gas Co.

Please address all communications to—

ROSES

DELETION OF INFERIOR AND UNWANTED VARIETIES.

The varieties in this list have been selected with every possible care, and are confined to the best of the older varieties, to which have been added new varieties that are, in our opinion, a definite advance in colour, growth, scent, or other qualities. All inferior or unwanted varieties have been rigidly discarded.

QUALITY OF PLANTS.

All our Roses are produced on our branch Nursery, at Greensborough, the soil, climate, and conditions there being ideal for the production of healthy, sturdy plants, with vigorous roots.

PRICES.

All varieties not priced are 1/9 each.

Six or more plants at the rate of 18/- per dozen.

Three-quarter Standards (30-inch stems), 3/6 each, 40/- dozen.

Full Standards (36-inch stems), 4/- each, 45/- per dozen.

For list of varieties available as Standards, see pages 7 and 8:

Weeping Standards, 4 feet stems, 10/6 each.

„ „ 5 „ „ 25/- „

„ „ 6 „ „ £2/2/- „

For list of varieties available on Weeping Standards, see page 27.

PACKING CHARGES ON ROSES.

The following charges are made where it is necessary to pack Rose plants in bundles for forwarding by post, rail, or boat.

1 to 12 plants, 6d. ; 13 to 24 plants, 1/-.

25 to 50 plants, 1/6 ; 51 to 100 plants, 2/6.

Roses going long distances are always extra carefully packed in view of possible delay, and will not harm for several days.

Roses for export are packed in cases, which are charged at cost price of material and labour.

SUBSTITUTION.

When ordering, state if we may replace sold-out varieties with others equally as good, or add extra names from which a selection can be made to replace those out of stock. This applies particularly to late orders.

TIME TO ORDER.

Roses are available for delivery from the first week of June until the end of August. After that we have a limited supply of popular varieties available for planting from pots.

Orders are booked at any time throughout the year, and plants reserved for despatch when required.

Order Early.—It greatly facilitates despatch if orders are received early, and will save disappointment to our customers.

For Quick Reference, Use Index at Back of Catalogue.

Brief Suggestions for Planting Roses.

ARRIVAL OF PACKAGE.—Upon the arrival of the parcel, open the bundle in a sheltered place and soak the plants thoroughly, or immerse the roots in a pail or tub of water for a few minutes. After removing them from the water, cut away all broken or damaged roots and branches. Take care not to expose the roots to sun, light, or wind. Remember, Rose roots are not intended to be exposed to the air, they belong to the soil. If the plants arrive before the ground is ready to receive them or during unsuitable weather for planting, open the package and “heel-in” the contents, this simply means planting in a slanting trench so that the roots are covered. In such a position the plants will be quite safe and can be planted at the first opportunity.

SOIL AND SITUATION.—A rich, well-drained soil and an open situation are important factors in Rose growing. The most suitable soil is a heavy loam of a greasy nature. However, with reasonable attention and preparation they can be grown in almost any soil. Light soils require the addition of loam or well-rotted cow manure, whilst heavy clay soils can be broken down by the use of ashes or lime.

PLANTING.—The best time to plant is from the middle of June to the middle of July; they can, however, be planted till the end of August if the ground is in suitable condition. Trim off all damaged ends of roots, and, having made a hole sufficiently large to take the plant with roots, spread out horizontally, cover the roots with some fine soil, then add more soil and tread firmly. Do not plant too deeply. The plant should be put in so that the union of the rose and briar stock is just below the level of the ground, as it will be when the surface soil is settled. Standards should be planted about four to six inches deep. These require to be staked to prevent the plants swaying in the wind. This stake should be put in the same time as the plant. Unless rain is likely to fall soon after planting, give each plant a thorough watering to settle the soil around the roots. No further attention will be necessary until pruning time.

PLANTING DISTANCES.—Dwarfs or bushes for beds should be planted 2 to 3 feet apart; Standards, 3 to 4 feet apart; Polyanthas for borders can be planted 2 to 2½ feet apart; and Climbers on fences at any reasonable distance, such as 4 to 6 feet apart. Roses planted for hedges should be spaced 3 feet apart, the most suitable varieties for this purpose are Sunny South, Cecile Brunner, and Red Letter Day.

PRUNING OF NEWLY-PLANTED ROSES.—This point is of great importance, as every season we find instances of Roses that have failed to grow, simply through neglect of this matter. Plants, as despatched from the Nursery, have the foliage removed, and all soft or sappy wood cut out so as to facilitate packing and handling. If planted early, leave the growth as received till the usual pruning season comes round. After planting, all bush and standard Roses should be pruned hard back, leaving only 3 to 6 inches of growth above the union. In the case of those desiring to produce exhibition blooms even more drastic cutting is necessary. Climbing Roses of strong growth should be cut back to 12 or 15 inches for the first pruning. We will gladly prune the plants before despatch if you ask us to do so.

New Roses for 1930.

The following varieties have been chosen as the most promising of the many novelties offered by the leading Rose-growers of the world. They are all interesting, and most of them display colour variations and combinations that are uncommon if not entirely different from older varieties. The descriptions are those of the raisers. These Roses are all strong plants grown at our Greensborough Nursery.

PRICE, except where otherwise priced, 4/- each; six or more varieties at the rate of 42/- per dozen.

DWARF OR BUSH VARIETIES.

Betty Sutor (H.T.).—This rose was introduced as an improvement on the well-known Madam Abel Chatenay. The inside of the petals is pale rosy-pink, heavily veined with rose, and the outside a bright rosy-pink. As the flower opens there is that delightful reflection of the petals which enhances the beauty of the pink tones by bringing each one into bolder relief. The blooms are moderately large and of exquisite form, produced freely throughout the whole season. Of free, bushy habit.

Canary (H.T.).—The bud is light golden-yellow, edged lightly with cerise, but when fully opened the flowers are of bright clear canary. A most profuse and continuous bloomer with rigid stems and glossy disease-resistance foliage. Growth is very vigorous, free-branching, and upright. Of good bedding habit.

Christoph Weigand (Pern).—One of the most beautiful roses introduced of recent years. The colour is of clear pink, a very beautiful shade with perfect form in the large full flowers, which are held on rigid stems. Highly recommended.

Cilly Michel (H.T.).—A new rose of remarkable and very beautiful colouring. Of clear capucine brown-red, burnished with orange-yellow and coral-red. The large flowers are full, and sweetly perfumed. Of very free-flowering and vigorous habit, with disease-resistant foliage.

Conqueror (H.T.).—This rose has a long pointed bud, which opens to a fine well-formed bloom of deep yellow, tinged with apricot at the base of the petals. It is of strong upright growth and an ample supply of bright green foliage. Sweetly perfumed.

DAILY MAIL SCENTED ROSE (H.T.).—Deep velvety red, shaded scarlet. The full flowers are of good shape, and growth is vigorous and free. This bloom received the "Daily Mail" Cup for its delightful fragrance.

Director Rubio (H.T.).—The very large flowers of a beautiful deep crimson red are carried on stiff stems, and the bush is always in flower—so free-flowering is this variety. Fine foliage and of good habit. A really good, free-flowering decorative Rose.

E. G. Hill (H.T.).—The new Red American Gold Medal Rose that is creating so much interest all over the world. A fine large bold flower of brilliant red colouring, carried erect on good strong stems. It is early to be certain, but this variety looks particularly good.

E. Pemberton Barnes (H.T.).—The colour of the half-opened flower is light pink, shaded cerise. The flowers are full and large, quite suitable for specimen blooms, and bedding. Growth is vigorous.

Fancy (H.T.).—The colouring of this flower is peach, with cherry-red shadings on a golden-yellow ground. It is a perpetual of free-flowering habit. Glossy sea-green foliage. Of vigorous habit, with good upright branches. A very fine fancy bedder.

Felicia (H. Musk).—A perpetual-flowering cluster rose of soft china pink, delicately shaded yellow. The flowers are produced in large clusters, and carried erect in rosette form. Very fragrant. Good in Autumn.

Flamingo (H.T.).—Bright geranium red, turning to glowing rosy cerise. The flowers are of beautiful spiral shape with high pointed centre. Disease-resistant foliage; of branching habit. Very free and vigorous. Very sweetly perfumed.

Our Roses are Noted for their Strong Vigorous Roots.

NEW ROSES.

Frau E. Weigand (H.T.).—One of the best of the new Roses. The colour resembles that of Golden Emblem. The flowers are large, full, and of excellent shape, and the perfume identical with that of Marechal Niel. The flowers are carried erect on strong stems, and the growth is vigorous and healthy. In all respects this appears to be a really good variety.

Gaiety (H.T.).—A pretty combination of orange, Indian red, yellow, and pink. The flowers are large, fairly full, and daintily cup-shaped. Free-flowering, with grand glossy foliage. Very vigorous, and of good habit. Very few thorns. Recommended.

George Dakin (H.T.).—The inside of the petals of this variety is soft silvery pink, flushed with apricot, but on the back of the petals the apricot predominates. This is a very fine free-flowering upright bedding Rose, with particularly handsome foliage. Recommended.

George Howarth (H.T.).—A fine new bedding and decorative Rose of good vigorous habit. The colour is a vivid dazzling cerise, with a distinct lemon shading at the heart. Fine glossy foliage and very strong briar fragrance. A really good Rose.

Gwyneth (H.T.).—The colour of this desirable subject is rich canary yellow, without shading. A strong upright grower, making a good bedding yellow that is much needed. This Rose is a hybrid from Willowmere and Mrs. W. Quin, having the strong growth of both parents and the colour of the latter, but the flowers are much larger, fuller, and are particularly well formed.

Helen Fox (H.T.).—Another particularly good new Rose. A magnificent shade of rich golden yellow that lasts well. The buds are a fine shape, and of Indian yellow, shaded coppery red. Very free-flowering, and of vigorous habit. This is a Rose which will be much in demand.

JOANNA HILL (H.T.).—A new clear yellow Rose, with a deeper shaded heart. A variety that is quite distinct. Very healthy, with fine foliage and long stems. Free-flowering. This Rose has a big reputation in the Old World.

J. Otto Thilow (H.T.).—Flowers of rich glowing rose pink. A very strong grower, with clean healthy foliage. Free-flowering, and in every respect a grand garden Rose.

Joy (H.T.).—In the bud and half-open stages the colour is rich tangerine red, shaded coppery bronze and orange. The full flowers are rose, suffused with tangerine and Lincoln red with yellow base. In all stages the colour is extremely beautiful, full, well-shaped, with pointed centre. Strong briar fragrance. Growth vigorous, with free-branching habit. Disease-resistant foliage is first bronze green and later handsome deep green. An ideal bedding variety.

Jules Gaujard (Pern.).—Another addition to the wonderful list of free-flowering Roses. Of dazzling carthame red, shaded carmine, the colour is retained to the end, and produces a magnificent effect against the brilliant green foliage. Vigorous and healthy, this makes a distinct bedding Rose that is certain to be wanted.

Julie Strahl (H.T.).—A charming seedling of capucine red on a golden-yellow ground, toning to golden yellow. The flowers are large and full, and are carried on long stems. Free-flowering and very sweetly perfumed. Fine foliage, and of good habit.

Lady Leslie (H.T.).—Rich scarlet carmine, suffused with saffron on a yellow base. The flowers are beautifully formed and sweetly fragrant. Of bushy upright growth, with dark green mildew-proof foliage.

Madame Henri Queuille (Pern.).—The chief colour of this flower is a vivid shrimp pink, much deeper at the heart, shaded with fiery copper, and suffused gold on the back of the petals. The bud is long. Deliciously perfumed. Very vigorous, with bronzy-green foliage immune from disease, and with fine habit. This should become a very popular variety.

Marechal Petain (H.T.).—Flowers are soft pink on a yellow ground. Perfect form, with vigorous growth and erect habit.

Margaret Anne Baxter (H.T.).—This new white Rose has been very favourably noted. The form is perfect in all stages. Strong petals, very sweetly-scented flowers are freely produced on graceful strong stems. Very fine foliage and few thorns. A promising Gold Medal variety.

Gwyneth (H.T.) is a splendid and reliable yellow Rose.

NEW ROSES.

- Marguerite Chambard (H.T.).**—One Rose introduced this season that looks very promising. The colour is geranium red, shaded with vermilion, is quite distinct, and lasts until the petals drop. Very vigorous, with fine foliage. Sweet perfume, and exceedingly free-flowering habit. Highly recommended.
- Marion Horton (H.T.).**—A fine new yellow Rose, almost the colour of Marechal Niel, and with an entrancing tea-rose perfume. In the beautifully-shaped full-expanded flowers all shades from primrose to rich deep chrome yellow are to be found. The buds are streaked with scarlet. Beautiful mildew-proof foliage. A first-class Rose which will be much in demand.
- Marquise de Barbentane (Pern.).**—A very beautiful Rose. The colour is a vivid apricot, shaded with fiery orange, and red with a heavy zone of gold at base of petals. Flowers average size and full. Long buds carried on rigid stems. Vigorous, with handsome foliage. Will be a popular Rose.
- McGredy's Ivory (H.T.).**—A long spiral form opening to a large well-formed flower of thick petalage and good lasting quality. Colour creamy white, of soft delicate tone merging into light yellow base. Free and perpetual flowering, and as a garden, bedding, or exhibition variety supplies a long-felt want. Vigorous and free habit, with dark green foliage. Can be thoroughly recommended.
- Mrs. E. Claxton (H.T.).**—This Rose may be said to be a larger edition of Madam Abel Chatenay, but its habits of growth are more sturdy. Flowers are large, perfectly formed, of great substance, and carried on erect long stems, with luxuriant grey-green foliage. Exceptionally hardy and vigorous, practically mildew-proof. A most valuable addition to exhibition or decorative Rose classes.

MRS. HERBERT DOWSETT (Pern.).—Deep flame pink, toned with coral, really a deeper-coloured Los Angeles, and a fixed sport that is a great improvement. A splendid grower, and very free-flowering. Extra fine and sure to command a big sale.

- Mrs. Sam McGredy (H.T.).**—Colour scarlet coppery orange, heavily flushed with Lincoln red on the outside of the petals, giving a rich dazzling effect, particularly brilliant in the sunshine. Flowers large and of fine form, delicately perfumed, and produced with great freedom. Foliage mildew-proof, free, and vigorous.
- Perfume (H.T.).**—Deep fiery velvety crimson, buds long and pointed, flowers medium full, with thick broad petals. Growth vigorous and branching. The foliage is dark bronze green. An ideal bedding Rose with a strong rich perfume.
- Portadown Bedder (H.T.).**—Orange yellow, flushed with rich cerise and suffused on the inside with glowing scarlet cerise on an orange ground. The blend of colours gives a warm tone to the whole flower. Blooms of moderate size, good form, and thick texture of petal. A delightful garden and bedding rose that has only to be seen to be admired.
- President Jac Smits (H.T.).**—A very free-flowering brilliant deep red bedding Rose of the first rank. Fine buds and semi-double full very brilliant flowers. Always blooming. Of fine habit, with good foliage not subject to disease.
- Princess M. Von Arenberg (H.T.).**—The flowers are very large, full, and of excellent form. The colour rosy white, shaded pale rose pink. Growth vigorous, erect; very free, and continuous in bloom. The flowers, which are sweetly scented, are carried on rigid stems. A really beautiful Rose.
- Schwabenland (H.T.).**—The large full flowers of fine form are a lovely shade of deep pink, and are very freely produced. This Rose is distinct in all respects, and well worthy of a trial as a very promising novelty.
- Swansdown (H.T.).**—White, shading to cream at the base. Buds long and pointed, opening to full spiral blooms of beautiful formation. Growth is very vigorous and branching. Free-flowering and sweetly perfumed.
- Talisman (H.T.).**—A very fine and attractive novelty that is quite distinct. Scarlet, pink, copper, and gold are all to be found in the glorious shadings. Splendid very vigorous habit and growth. Free-flowering, with fine flowers and buds. Large leathery foliage.
- Theresa Morley (H.T.).**—The bud and flower are very large, double, and moderately perfumed, lasting well, keeping their carmine-cerise colouring to the last. Growth very vigorous, and the flowers, which are borne several together on long stems, are continuously produced throughout the season.
- Windsor (H.T.).**—Colour a rich scarlet crimson. Very free-flowering, vigorous, and branching. Flowers delightfully fragrant, carried on erect long stiff stems. An ideal bedding Rose of a type that will be more in demand.

A dazzling beauty—Mrs. Sam McGredy.

Australian-Raised Roses 1930.

Varieties raised by Mr. Alister Clark. All plants bear the label of the National Rose Society of Victoria, to which Mr. Clark has presented these Roses.

Price, 3/6 each.

Dorothy Mollison (H.T.).—No Rose could be more free, as every shoot carries a flower of splendid dark crimson, well held on a healthy bush. This Rose makes a splendid bedder, continuously in flower, and making a shapely bush.

Lady Somers (H.T.).—A clear flesh-pink Rose of good form and habit, every shoot bearing a flower that charms everyone who sees it. Should be planted in groups. A particularly fine cut flower of great refinement.

Mrs. Hugh Dettman (H.T.).—A pillar Rose of great refinement and taking colour, being bright apricot yellow that opens well, and is particularly healthy and attractive.

Mrs. Norman Watson (H.T.).—This beautiful Rose is most decorative and effective. The flowers are extra large, and are deep cherry-pink. It makes a showy pillar Rose, or can be kept as a large bush. Should make a fine standard. Has been well tested at "Glenara."

A new variety also raised by Mr. Alister Clark and presented to Geelong Horticultural Society.

Special Offer.

"Argus" Collection of Roses.

The above 36 varieties, in strong Bush Plants for £2/10/-.

The above 36 varieties in Three-quarter Standards for £5/10/-.

Seymour, Victoria,
July, 1929.

"The Roses arrived in splendid condition, and seem to be doing very well. The plants we brought up with us are growing excellently despite the heavy frost we have been having."

For other Special Offers, see pages 33 and 34.

Standard Roses.

These ornamental Roses relieve the flat appearance in the Rose garden, and allow the use of a larger number of varieties in gardens of limited space; they allow for the free use of bedding plants or annuals. Some varieties, particularly the Pernetiana type, do better on Standards, and as such are less liable to the troubles which at times render these beautiful Roses useless as bushes.

These Roses require to be securely staked when planted.

Prices.

Full Standards, 36-inch stems, 4/- each; 45/- per dozen.

Three-quarter Standards, 30-inch stems, 3/6 each; 40/- per dozen.

"The Roses have come on in a wonderful way."

Toowoomba, Queensland,

June, 1929.

"Many thanks for Roses received. They were beautifully packed, and arrived in perfect condition."

We always discard Roses not likely to be satisfactory.

General List

..... of

Dwarf or Bush Roses

Tea, Hybrid Tea, and Pernetiana Roses.

PRICES:

All varieties not priced 1/9 each.

Six or more plants at the rate of 18/- per dozen.

- Adele Crofton (H.T.).**—Bud and young flower cadmium yellow, richly overlaid with orange scarlet, which becomes more pronounced towards the edges of the petals. The colour fades to rich apricot, still retaining a shading of vermilion. The growth is hardy, strong, and of free-branching erect habit. The bud makes a delightful buttonhole 2/6
- Advocate (H.T.).**—The bud and young flowers are rich crimson red, deeply veined and shaded darker crimson, with a brightened zone at the base of the petals. The buds are long and pointed, growing to a noble free bloom built of deep petals. Quite up to exhibition standard. Growth vigorous and free, of excellent bedding type. Richly fragrant 2/6
- Agnes Barclay (H.T.).**—A delightful combination of rich yellow and reddish salmon tints. A dwarf decorative variety that is continuously in flower, sweetly tea scented. Most beautiful in Autumn and Winter.
- Albert Pike (H.T.).**—Handsome bud, expanding to full well-shaped cup flower of rich glowing cerise, with peach flush at times. The flowers are borne on long strong stems, and are produced continuously throughout the season 2/6
- Alexander Hill Gray (T.).**—Clear lemon yellow deep-pointed blooms. A robust free-flowering variety with a decided tea scent.
- America (H.T.).**—A beautiful peach-blow shade of pink, buds of great length and pointed. Open flowers, very large, and possessing a delightful fragrance. Almost thornless, producing perfect blooms on the smallest plants.
- Angele Pernet (Per.).**—Vivid orange yellow, shaded deep reddish apricot, outside of petals fiery golden yellow. The sweetly-scented flowers are produced in great freedom on long, erect stems. A vigorous grower with good foliage.
- Annie Laurie (H.T.).**—Petals flesh pink, with golden base, and edged with a deeper shade of pink. Large full double cup-shaped blooms. Growth vigorous, upright, and bushy. Of the same upright type as Madam Butterfly, but with more colour and substance.
- Arthur Cook (H.T.).**—Deep velvety crimson with a beautiful sheen. Fine free-flowering habit. Flowers large, full, and sweetly scented. A good vigorous rose with fine foliage.
- Aspirant Marcel Rouyer (H.T.).**—Deep apricot shading to reddish apricot in centre, tinted salmon flesh on outer petals, veined deep yellow at base. Growth vigorous and erect.
- Austrian Copper (Briar).**—A single Rose of striking brightness. Colour reddish copper with bright golden reverse, bronze thorny wood.
- Bedford Crimson (H.T.).**—Rich velvety crimson; the blooms are reflexed and carried on long stiff stems. A Rose of good substance, possessing the true old rose scent 2/6
- Belle Seibrecht (H.T.).**—Bright rosy pink, large and beautifully formed. A popular free-blooming variety that opens quickly. A good exhibition Rose.

Albert Pike makes a delightful buttonhole Rose.

DWARF OR BUSH ROSES.

- Betty Uprichard (H.T.).**—A combination of delicate salmon pink, suffused with copper and orange, reverse of petals carmine, deliciously fragrant. A most beautiful, vigorous, decorative rose that every one should grow.
- Billy Boiler (H.T.).**—Dazzling red, long upright growths, always crowned with buds, exceedingly free-flowering. A most striking variety that can be used either as a bush or pillar rose.
- British Queen (H.T.).**—White, of magnificent form, showing the slightest pinkish flush in the bud stage. An exhibition variety, of low-branching habit.
- Busybody (H.T.).**—True to its name, this Rose seems never to rest. No Rose could be more free, as every shoot carries a shapely bud of rich orange yellow. Compact habit, and flowers well held; foliage abundant and healthy. An ideal bedding Rose, and best when massed. At its best in Autumn into Winter, when its colour is most striking and attractive. 2/6
- Carine (H.T.).**—A beautiful decorative Rose of many colours, which include orange, carmine, blush, buff, creamy, fawn, and copper salmon. Long elegant buds carried erect on stout stems. Vigorous and free-flowering. An ideal variety for cutting.
- Caroline Testout (H.T.).**—Bright, warm pink, large globular blooms. A fine, vigorous, reliable variety for any purpose.
- Charles K. Douglas (H.T.).**—Intense flaming scarlet, flushed bright velvety crimson. Vigorous upright growth, flowers large, full, and of fine form, with long pointed buds freely produced right throughout the season.
- Chas. P. Kilham (H.T.).**—Brilliant nasturtium red, suffused with glowing scarlet. When fully open the colour fades to brilliant Lincoln pink in the old flowers. Buds well shaped, opening to good-sized flowers of fine form. Free-flowering, with a fine tea scent. Growth bushy, with long stiff stems carrying the flowers erect.
- Chateau de Clos Vougeot (H.T.).**—Glowing red blooms, deeply shaded black and scarlet, very double and intensely fragrant. Growth of low-branching habit, very suitable for bordering. Always in flower, the blooms being at their best when fully expanded.
- Cherry (H.T.).**—Sunflower yellow on outside, on inner side bright rose, heavily veined deeper rose. As flower matures, the inner surfaces turn brilliant carmine pink, flushed yellow. Blooms large, full, well formed, with reflexed petals. A fine bedding and decorative variety. 2/6
- Christine Prior (H.T.).**—Deep, bright rosy red, flushed with yellow and peach, golden base. A glorious colour combination. Flowers long and pointed, and carried upright. Fine strong bushy habit.
- Clarice Goodacre (H.T.).**—Buds yellow, opening creamy white, zoned with pale buff. Flowers of perfect form, sweetly perfumed, with high pointed centres.
- Cleveland (H.T.).**—Very large full flowers of old rose and copper, shaded with yellow at base of petals, moderately fragrant. Growth vigorous.
- Colonel Oswald Fitzgerald (H.T.).**—Blood red velvety crimson, produced in great profusion on erect stems. A strong vigorous grower, and one of the best reds for bedding and massing.
- Columbia (H.T.).**—Lively bright pink, sweetly scented, flowers of exquisite shape and strong stiff petals, deepening in colour as they expand. Free-flowering, good growth, and healthy foliage.
- Commonwealth (H.T.).**—Deep pink, of solid colour, large, very lasting, moderate fragrance. Bud large, long, and pointed, borne singly on medium strong stem. Growth vigorous and upright, foliage leathery, rich green.
- Comtesse de Castilleja (Pern.).**—A very free-flowering perpetual Pernetiana; it will make a grand bedder. The wonderful colouring is very difficult to describe, and must be seen to be appreciated. Orange flame, bordered with intense vermilion, passing to golden coral as the flower opens. Handsome long buds. Sweetly scented. Very vigorous, with dark green foliage.
- Constance Casson (H.T.).**—Coppery pink, flushed and veined with apricot yellow, large double and globular. A very richly-coloured variety of free-blooming habit. Growth, strong and dwarf. A splendid bedding Rose.
- Countess Clanwilliam (H.T.).**—Delicate peach pink, and yellow shaded and edged with deep cherry red. A distinct and charming variety, producing quantities of large full blooms. A good strong grower of neat habit.
- Cuba (Pern.).**—The long buds are almost scarlet. The open flowers are a very uncommon shade of orange scarlet or Lincoln red on the back of the petals, and the colour on the inside of the petals is a rich light velvety scarlet crimson, with carmine towards the tips of the petals. The large flowers are fairly full and globular, carried erect on upright stems. Very sweetly perfumed. Growth vigorous.

Dame Edith Helen is a glorious rich pink, sweetly perfumed.

DWARF OR BUSH ROSES.

- C. V. Howarth (H.T.).**—Blackish scarlet, well-formed blooms, deliciously perfumed, borne very freely on dwarf, wiry plants. A fine garden Rose.
- Dainty Bess (H.T.).**—A true single of wonderful charm. The colour is a delightful salmon pink, and the stamens and centre of the flower make a unique contrast with their gold and crimson. The petals are bold, nicely shaped, and mostly with frilled edges. Sweetly-scented flowers are carried erect in large trusses. Always in flower. Growth vigorous. A fine decorative and bedding Rose.
- Dame Edith Helen (H.T.).**—One of the best Roses of recent years. The blooms are large, well formed, with high pointed centres. The colour is a rich glowing pink, inclined to pale as the blooms expand. Deliciously scented. The habit of growth is vigorous and branching, and the foliage is a dark green, leathery, and mildew-proof. As a garden, bedding, and exhibition Rose, this variety will have few equals.
- Desmond Johnston (H.T.).**—Brilliant scarlet, very heavily flushed orange and scarlet, with a deep orange base. The outside of petals heavily veined and flushed orange, shading up to scarlet and claret. Flowers are large, full, and of perfect conical shape and form, one of the best naturally-shaped Roses we know. Growth sturdy, free, and bushy, with dark green leathery foliage.
- Doris Dickson (Pern.).**—Orange cream, heavily veined and pencilled with deep cherry red. The flowers are medium sized, exquisitely formed, and very freely produced. Blooms carried erect on stiff, wiry stems. Extremely fragrant. Growth vigorous and free-branching.
- Dorina Neave (H.T.).**—A delightful silvery pink. The large, full, pointed globular flowers are carried erect on stiff stems. Fine compact growth. Free-flowering and very fragrant.
- Dr. Edward Deacon (H.T.).**—Margin of the petals being pale shrimp pink, gradually emerging into a deep salmon orange towards the base of petals, giving the flower a wonderful appearance. A fine exhibition Rose, very full, and of fine form. Growth upright and free, with bold leathery foliage.
- Dr. J. G. Fraser (Pern.).**—A charming Rose. Colour salmon apricot, suffused vermillion pink. The buds are long and shapely, opening to fairly full, large flowers, with beautiful shell-shaped petals. The inner petals have a suffusion of buttercup yellow. Growth vigorous. Free and continuous flowering.
- Duchess of York (Pern.).**—Deep golden yellow, with tangerine centre, deepening as the flower ages to orange tangerine. A very charming variety of strong, vigorous, free-branching growth, with handsome foliage. Flowers large, very full, and of fine form.
- Earl Haig (H.T.).**—Deep reddish crimson, a solid colour that does not fade. Flowers of immense size and substance, perfectly formed, with high centre, very sweetly perfumed.
- Edith Clark (H.T.).**—A dazzling red, with beautifully shaded Camellia-like double flowers held well on a sturdy bush, of which each shoot is crowned with a bud. Ideal for bedding or cutting. Recommended.
- Edith Nellie Perkins (H.T.).**—Outside of petals light Orient red, shaded with cerise at top and orange at base. Inside of petals salmon pink, with golden orange base. Sweetly scented fairly full flowers, freely produced, and carried erect on long stems. Fine foliage, vigorous healthy growth. A reliable Rose of great merit. 2/6
- Edith Part (H.T.).**—Light red, suffused salmon and yellow, becoming lighter with age; richly perfumed blooms of good shape. Vigorous and free-flowering.
- Edward Mawley (H.T.).**—Buds almost black, unfolding to dark red, fairly full flowers of exquisite form. Highly perfumed. Plant of moderate growth.
- Emily Dodd (H.T.).**—The colour in the young stage is creamy yellow, being more pronounced at the base of the petals, changing to milk-white in the old flower. The bloom is large, full, and well formed, of exhibition standard. Growth vigorous and free-flowering, with delicate tea scent, and bright green foliage.
- Emma Wright (Pern.).**—Colour pure orange, without shading; an attractive bedding variety of good habit and free-flowering character.
- Ethel Somerset (H.T.).**—Petals shrimp pink edged with coral pink, flowers large, full, and perfectly formed, with high pointed centre. Vigorous and branching, very fragrant.
- Etoile de Hollande (H.T.).**—Bright dark red, blooms of magnificent size, showing clean, attractive centres when fully open, very fragrant. Free-flowering, and healthy grower. A splendid Rose, and perhaps the best red we have.
- Europa (H.T.).**—A very fine deep pink bright sport from Columbia that is spoken of very well on the Continent. 2/6

Dorina Neave makes a wonderful exhibition bloom.

DWARF OR BUSH ROSES.

- Everest (H.T.).**—The giant gold medal white Rose. Of very vigorous habit.
- F. Joseph Looymans (Pern.).**—Yellow, with vivid apricot, giving a brilliant effect in the centre. Flowers large and full, buds well formed, long, and pointed. Growth strong and bushy.
- Fascination (H.T.).**—A charming bedding Rose, with habit and growth of *Madam Butterfly*. The colour is a pretty rosy cerise, shaded yellow. Habit of growth vigorous, and the foliage dark glossy green. Very sweetly scented.
- Florence L. Izzard (Pern.).**—Deep pure buttercup yellow, blooms semi-double, long, and pointed, of fine substance, perfect form, and delightfully scented. Growth moderate.
- Fontanelle (H.T.).**—Yellow, deepening towards the centre. A fine big Rose with immense petals. Buds long and of good shape. Flowers produced on long stiff stems. Growth vigorous and free-flowering, with good foliage.
- Frau Karl Druschki (H.P.).**—Pinkish buds, and magnificent snow-white blooms, with deep, firm petals of perfect shape, but without fragrance. A very vigorous grower.
- General Gallieni (H.T.).**—Rich metallic red, varying in colour, sometimes shaded with yellow. A dwarf grower with beautiful foliage, most suitable as a standard.
- General McArthur (H.T.).**—Bright scarlet, crimson blooms of nice size and shape, very freely produced, and delightfully scented. The growth and foliage are ideal. One of the best bedding roses.
- George Dickson (H.T.).**—Immense dark red velvety blooms of the most perfect shape, very fragrant. A most vigorous and hardy variety.
- George H. Mackereth (H.T.).**—A very distinct and beautiful Rose that adds another valuable addition to the crimson shades. Growth vigorous and free-branching. Sweetly scented.
- George Schwartz (T.).**—Bright canary yellow, very rich in colour. Rather a poor growing variety that is perhaps worth while as a standard.
- Golden Butterfly (H.T.).**—The colour of this ideal free-flowering bedding Rose is a clear shining golden orange yellow, and is very striking. The buds are striped with coral red. Semi-double. Growth very strong and bushy, with bronze green foliage.
- Golden Dawn (H.T.).**—Buds of rich Sunflower yellow, heavily flushed with deep old rose. Opened, the inner face of petals shows the same yellow, which tones to lemon as the flower ages. Growth very vigorous, distinctive foliage, good branching habit. Capable of producing exhibition blooms of a very high order. Flowers richly tea scented, and free-flowering 2/6
- Golden Emblem (H.T.).**—A wonderful golden yellow, with practically every good quality, sweetly scented, with glossy mildew-proof foliage. In some ways it is not quite the equal of *Mabel Morse*. Most satisfactory as a standard.
- Golden Gleam (H.T.).**—Bright buttercup yellow, without shading. The outer petals are flushed and streaked scarlet on the same lines as *Golden Emblem*. Fine bold heavy petals. Very free-flowering. Dark brown, strong stems, carrying the flowers erect.
- Golden Ophelia (H.T.).**—Well-shaped blooms with a heart of golden yellow, shading lighter towards the edges of the flower, and delicately perfumed. The growth is robust and healthy.
- Gooiland Glory (H.T.).**—A striking novelty. Vivid glowing cherry red, shaded with coral red. Large semi-double sweetly-scented flowers on strong upright stems. A fine garden Rose.
- Gorgeous (H.T.).**—Orange yellow, flushed with pink and veined with reddish copper, of dwarf branching habit. Very free-flowering.
- Gustav Grunerwald (H.T.).**—Bright carmine pink, with yellow base. Large cup-shaped pointed buds, developing to long blooms with high centres. A Rose of very distinct colour, and one of the sweetest-scented varieties in cultivation.
- Gwen Nash (H.T.).**—A large semi-double most distinctive flower of cyclamen pink, with white eye. The plants are most vigorous in growth, and may be trained either as a large bush or a pillar Rose.
- Gwyneth Jones (Pern.).**—Brilliant carmine orange, without shading. A quite new colouring. The growth is bushy and strong. Very free-flowering. A good decorative Rose.
- Gwynne Carr (H.T.).**—Shell pink to pale lilac rose, deepening in centre. Buds long and pointed. Growth very vigorous and erect, with free-branching habit. Sweetly perfumed.
- Hadley (H.T.).**—A rich crimson red, with velvety texture, lovely form, and sweetly scented. Growth vigorous and free-flowering. Fine for bedding.

Plant *Golden Emblem* as a standard: it grows strongly.

DWARF OR BUSH ROSES.

- Hawlmarm Crimson (H.T.).**—Buds crimson with vivid maroon markings, opening to crimson scarlet semi-double blooms. Sweetly perfumed. A decorative Rose of the Red Letter Day type, with more colouring and of more dwarf bushy habit.
- Hawlmarm Scarlet (H.T.).**—Brilliant scarlet, the blooms are well formed, of medium size, and sweetly perfumed. Growth strong and branching.
- Henrietta (H.T.).**—Coral red, shading to coral salmon, of fine erect growth. A sweetly-scented decorative Rose, very suitable for bedding.
- Hilda (H.T.).**—Bud very large and globular. Flower very large and rounded very double, particularly lasting, slightly fragrant. Bright carmine colouring, inner petals light pink, several borne together on long stem. Foliage sufficient, disease-resistant. Growth very vigorous 2/6
- Holland Beauty (H.T.).**—Yellow and orange pink flower, of remarkably fine shape when in bud. Handsome foliage and a fine exhibition or garden variety.
- Hon. Charlotte Knollys (H.T.).**—Clear rose, with striking luminous effect, almost carmine in the shadows, and toning to a delightful shade at edges of petals. The creamy yellow in the centre gives peculiar liveliness to the flower . . 2/6
- Hoosier Beauty (H.T.).**—Deep velvety crimson blooms of good shape, and strongly perfumed. A strong, healthy grower, perhaps not as free-flowering as some reds.
- Imperial Potentate (H.T.).**—Rich shining rose pink, shaded lighter on reverse of petals. Well-shaped, firm-petalled blooms on strong erect stems. Fragrant.
- Independence Day (H.T.).**—Buds yellow, heavily shaded with copper and brown, opening to large blooms, which fade to light orange pink. Strong upright habit.
- Irish Beauty (H.T.).**—Single creamy white, with bright yellow stamens. Fragrant and free-flowering.
- Irish Elegance (H.T.).**—Bronzy pink buds, opening to large single blooms of apricot and yellow. Very strong growth and continually in flower.
- Irish Fireflame (H.T.).**—Large single blooms, orange crimson, shaded gold, pleasing fragrance. A strong-growing free-flowering variety. One of the best single Roses we have.
- Isobel (H.T.).**—Pointed buds and flowers with large petals flushed with carmine red and orange. Very fragrant. Very showy, and perhaps the best of all single Roses.
- Ivy May (H.T.).**—Rose pink, running to amber at the base of petals, flushed with gold on the outside and at the edges. A distinct colour of great beauty. Very sweetly perfumed. Growth, strong and upright.
- I. Zingari (Hy. Lutea).**—A new break in colour, being orange and bright scarlet. Semi-double, sweetly-scented blooms. Perpetual and free-flowering.
- James Gibson (H.T.).**—Glowing crimson scarlet, with velvety sheen. Flowers are large, full, well made, and open well in all weathers. Good mildew-proof foliage 2/6
- John C. M. Mensing (H.T.).**—A lovely shade of deep rose pink, of the same upright habit as Ophelia. Sweetly scented, perfectly-formed blooms. Very robust growth with handsome foliage. A Rose that should be in every garden.
- John Davison (H.T.).**—Deep rich crimson, shaded velvety crimson. The flowers are large, double, and of fine exhibition form. Growth dwarf.
- Jonkheer J. L. Mock (H.T.).**—Carmine buds of gigantic size, opening to enormous blooms of deep carmine pink, reflex of petals silver rose. A strong and healthy grower.
- Joseph Hill (H.T.).**—Salmon pink, shaded coppery yellow, blooms large, full, and of perfect shape, fragrant. Growth very strong.
- Julien Potin (Pern.).**—Unquestionably the most gorgeous and brilliant Rose yet introduced. A rich golden yellow that grows deeper and more intense as the flower matures. Buds are long and shapely, developing into large full flowers of beautiful form. Delightfully sweet scented. Growth upright, with ample glossy bronze-green foliage. Very floriferous 2/6
- Julia, Countess of Dartrey (H.T.).**—Pure Tyrian rose, with a yellow base, very intense, brilliant, and distinct. The flowers are very large, full, and of ideal shape, and fine for exhibition; in fact, one of the most perfect flowers as regards size and quality. Stems long and stout, carrying the flowers upright. Foliage large and leathery. Flowers have a very strong delightful fragrance.
- June Boyd (H.T.).**—Salmon carmine, with a yellow base, the outside of petals being heavily flushed amber yellow. As the flowers age, the colour softens to a bright peach blossom. Growth strong and free.

For exquisite colour choose Hilda.

DWARF OR BUSH ROSES.

- Kaiserin Augusta Victoria (H.T.).**—Pure white, with a tinge of yellow in centre, flowers large and full. A vigorous grower.
- K. of K. (H.T.).**—Brilliant scarlet red buds, and open, semi-double flowers of blazing red, with a blackish velvety sheen, fragrant. Of the same type as Red Letter Day, but slightly larger blooms. Very fine for bedding or hedges.
- Lady Ashtown (H.T.).**—Satiny buds, and blooms of deep shining pink, with a yellow glow at base of petals, high centre, double, and quite fragrant. A strong, free-flowering variety, very suitable for garden decoration.
- Lady Battersea (H.T.).**—Cherry crimson, shaded with orange, buds long and pointed. A strong vigorous grower.
- Lady Dixon Hartland (H.T.).**—Colour deepest salmon in centre, shading to pale pink on the outer petals. Flowers are long and pointed, opening well, and fruit-scented. Of strong upright growth.
- Lady Fairbairn (H.T.).**—No Rose could be more free, robust, healthy, perpetual, and charming. Colour bright lively pink; well-formed flower held on stiff upright stems. Last well when cut, and is quite distinct. Foliage ample and healthy, while the bush is compact and habit ideal for bedding . . . **2/6**
- Lady Florence Stronge (H.T.).**—An entirely new and unique colouring, being reddish prawn to violet old rose, shaded at base of petals with yellow, and towards edges to pink, the inner surface of petals being heavily veined scarlet. Flowers large and full, and of perfect shape. Growth free and bushy. A perfect Rose, and one of the best of recent introduction.
- Lady Forteviot (Pern.).**—A conical high-pointed Rose, even after the outer petals have spread widely. The colour is brilliant orange on the inner face, with bright canary yellow base, the back of the petals being paler and inclined to apricot. Leaves large and glossy, and free from mildew . . . **2/6**
- Lady Greenall (H.T.).**—Creamy white flowers, shaded orange, saffron, and pink. Beautifully formed blooms of medium size, with high centre. Strongly perfumed.
- Lady Helen Maglona (H.T.).**—In the bud stage bright crimson red, with dark markings, softening with age to a clear scarlet red. Growth vigorous and free. Flowers large and full. Very sweetly perfumed.
- Lady Hillingdon (T.).**—Deep apricot yellow, blooms of medium size borne in the greatest profusion. Sweetly perfumed. Growth and foliage perfect. One of the best garden Roses we have, particularly as a standard.
- Lady Inchiquin (H.T.).**—An attractive and beautiful Rose of novel orange cerise colouring, of perfect shape and delicately perfumed, and of undoubted beauty and charm. Most distinct and attractive.
- Lady Margaret Stewart (H.T.).**—Deep Sunflower yellow, splashed with orange scarlet, the reverse of the petals marked with carmine. Sweetly perfumed. A vigorous and hardy variety.
- Lady Maureen Stewart (H.T.).**—Velvety scarlet shell-shaped petals, an excellent bloom of ideal shape, and brilliant colour. Growth erect and bushy, but not quite as strong as desirable. Recommended as a standard.
- Lady Mary Elizabeth (H.T.).**—Brilliant carmine pink, without shading, paling in the fully-developed flower. Very vigorous and hardy, the free-branching upright growth ensures a wealth of bloom continuously produced on long stiff straight stems, which are clothed with long pointed foliage. Buds are of long spiral formation, opening to delightful fragrant blooms of moderate fulness. An outstanding decorative Rose.
- Lady Sylvia (H.T.).**—This charming novelty is a sport from the well-known Madam Butterfly. It resembles its parent in all respects except colour, which is superior, as all the shades are intensified, and are more lively.
- Lady Worthington Evans (H.T.).**—Glowing blackish crimson, petals of great substance and velvety smoothness. Strong wild rose scent. Of robust constitution, a fine bushy plant ideal for bedding. A sterling novelty of the same series as Red Letter Day.
- Ladylove (H.T.).**—Best described as an improved Madam Butterfly, with the same ideal upright, free habit, but with more apricot suffused in the colouring. The expanded flowers are light rose pink. Very vigorous.
- La France (H.T.).**—Silvery rose with a pale lilac shading. Though now old and in some ways out of date, it is worth a place in popular favour on account of its remarkable fragrance.
- Laurent Carle (H.T.).**—Gigantic oval buds and blooms of deep carmine crimson, perfectly formed, and strongly perfumed. A vigorous grower with large healthy foliage.

Remember we have 2 Lady M. Stewart—Margaret and Maureen.

DWARF OR BUSH ROSES.

- Lilian Moore (H.T.).**—Deep Indian yellow, paling in the open flower. Flowers of good form and freely produced. Growth free and branching.
- Lord Allenby (H.T.).**—Rich crimson, suffused with scarlet; large well-formed flowers of great depth and substance. Growth strong and vigorous.
- Lord Castlereagh (H.T.).**—Rich deep crimson, probably the darkest Rose in cultivation, and yet on account of the sheen on the petals and the radiance of the bright golden stamens the effect is decidedly bright. Growth strong, bushy, and upright, producing an enormous wealth of bloom throughout a prolonged season. Buds are long and shapely, developing into semi-double blooms of pleasing form, with a very pronounced and sweet perfume.
- Lord Charlemont (H.T.).**—Clear crimson, well-formed, high-centred, and fragrant blooms. A very fine free-flowering Rose of good shape and habit. Without doubt one of the best recently introduced reds.
- Lord Fairfax (T.).**—Cherry red, flushed with scarlet in the bud, expanded flowers are of an exceptionally pretty shade of cherry rose pink. Flowers full and sweetly scented. Growth strong and vigorous.
- Lord Lambourne (Pern.).**—A deep unfading buttercup yellow, margined with carmine. The flowers are larger and much fuller than Sunstar. Strong, vigorous grower, with bright glossy foliage. A most attractive and sweetly-perfumed flower.
- Lorraine Lee (H.T.).**—Semi-double blooms, warm rose pink, shaded with apricot. A dwarf-growing, free-flowering decorative Rose, valuable for its Winter-flowering habit.
- Los Angeles (H.T.).**—Bright flaming salmon, shaded with apricot. The flowers are attractively reflexed and pointed. Free-flowering and a good grower.
- Lyon Rose (H.T.).**—Shrimp pink, shaded with salmon. Large sweetly-scented globular blooms. A popular variety, but not the healthiest of growers.
- Mabel Lynas (Pern.).**—Dark crimson, with a yellow base, a special feature is that the flowers have probably the strongest and sweetest scent of any Rose in cultivation. The flowers are very large, full, and of fine form, with stout petals. Growth vigorous, upright, and free, with bright glossy green foliage. A very free and perpetual flowering garden and bedding variety.
- Mabel Morse (H.T.).**—Clear bright golden yellow, without shading, blooms freely produced and sweetly perfumed. Without doubt the best of all deep yellow Roses with a vigorous growth and constitution that carries it through where Golden Emblem fails. The foliage is remarkable for its beauty in Spring. Highly recommended.
- Madame Abel Chatenay (H.T.).**—Pale salmon pink with deeper centre, well-shaped blooms of medium size, free and continuous flowering, fragrant. A general favourite; of strong vigorous growth.
- Madame Butterfly (H.T.).**—Salmon flesh, shaded rose, with apricot and gold base. Blooms of exquisite shape and richly perfumed, carried on long stiff stems. Growth and habit perfect in every way. A Rose that should be in every garden.
- Madame Edouard Herriot (Pern.).**—Sparkling buds of coral red and orange, opening to large, moderately full blooms of brilliant orange red and salmon. One of the most brilliantly coloured Roses we have. Growth fairly vigorous, best as a standard or in the climbing form.
- Madame Henri Lustre (H.T.).**—Vigorous growth and erect branching habit, very floriferous. Colour dark scarlet to red, with beautiful long bud. Flower very large, full, and opening well.
- Madame Jules Grolez (H.T.).**—Bright china rose, blooms large, full, and freely produced, with slight fragrance. Growth vigorous and spreading.
- Madame Leon Pain (H.T.).**—Pale blush with yellowish orange centre, reverse of petals tinted vermilion, buds orange red. Very free and perpetual flowering. A good grower with healthy foliage.
- Madame Segond Weber (H.T.).**—Light rosy salmon, with a deeper centre. Blooms freely produced, are large and of perfect form, with massive petals. A good strong grower.
- Maman Cochet (T.).**—Carmine pink, suffused salmon yellow, blooms of immense size, with high pointed centre. A fine old Rose of strong vigorous growth. Unfortunately the flower stems are weak.
- Marcia Stanhope.**—A very fine pure white Rose, with a delightful perfume. Flowers of good form and texture, produced with freedom. Growth strong and healthy.
-

Lord Castlereagh is a better red than Hawlmark Crimson.

DWARF OR BUSH ROSES.

- Margaret McGredy (H.T.).**—Clear orange scarlet, a colour that does not fade even when the flowers are wide open. The flowers are large, full, and of perfect form, with large petals of good texture, and are borne freely throughout the season. The habit of growth is wonderful, and is one of the outstanding features of this marvellous variety; it is extraordinarily free, bushy, and upright, and of vigour unapproached by any other Rose. An ideal garden, exhibition, and bedding Rose.
- Margaret Dickson Hamill (H.T.).**—Delicate straw yellow, with a light flush of carmine on outside of petals. A vigorous, erect, deliciously fragrant Rose with a strong constitution.
- Marie Adelaide of Luxembourg (H.T.).**—Deep orange yellow, blooms large, deliciously perfumed, and of perfect form. Growth vigorous.
- Marion Cran (H.T.).**—Buds deep buttercup yellow, margined and flushed cerise, and rosy scarlet, opening brilliant geranium scarlet, flushed orange and yellow, the outside of the petals retain their yellow colouring. As the flower ages the colour changes to deep cerise flushed buttercup yellow. The flowers are full, and of nice form. Growth free and upright. One of the freest and most perpetual flowering garden and bedding Roses.
- Mary Guthrie (H. Wich.).**—A most distinct and striking single Rose of a new shade of vivid pink, which is most pleasing and unique. Continuously in flower; of dwarf, compact habit, and strong growth. Very free-flowering.
- Mary Pickford (Pern.).**—Deep orange yellow, shading lighter during hot weather; of moderate size and with a delicious perfume. Buds of refined form, long and pointed, stained on the reverse with salmon. Growth strong and vigorous.
- May Wettern (H.T.).**—Richer in colour than Madame Abel Chatenay, and quite distinct. Inner face of petals evolves from bright salmon pink in the bud to deep flesh, then to pure light pink in the aged bloom. The outer side passes from deep rose to rosy pink. Of upright and vigorous habit with long stems and bright foliage. A particularly good Rose 2/6
- Miss Bep Van Rossem (H.T.).**—One of the very best dark canary yellow Roses yet raised. Buds long and pointed. Flowers of medium size, carried erect on strong rigid stems. Growth erect and free-flowering, with dark green foliage.
- Miss Cynthia Forde (H.T.).**—Deep rosy pink, very double, perfectly formed flowers, very fragrant. Growth strong and erect. Very free-flowering.
- Modesty (H.T.).**—Pearly cream, faintly flushed rose. Blooms large, with high pointed centres. Sweetly perfumed and free-flowering. A faultless exhibition variety.
- Molly Bligh (H.T.).**—Deep madder pink, with an orange halo at base of petals, very sweetly perfumed. Blooms large. Growth vigorous and free-branching.
- Montuna (H.P.).**—Intense crimson maroon colouring and strong green foliage. Very sweetly perfumed. A true sport from Prince Camille de Rohan, from which it inherits this delightful perfume.
- Mrs. Aaron Ward (H.T.).**—Indian yellow, occasionally shaded with salmon rose, and sweetly perfumed. Growth vigorous and dwarf, with deep glossy foliage.
- Mrs. Albert Nash (H.T.).**—This Rose is indeed a real red that holds its colour. Particularly free, perpetual, and sweet, on upright stems of good length. Form is good and slightly incurved. Bush well shaped and vigorous . . . 2/6
- Mrs. A. R. Barraclough (H.T.).**—Bright, sparkling, carmine pink, shading to yellow at base. Flowers full, of fine form and substance. Sweetly perfumed. Growth strong and vigorous, free-branching, and upright.
- Mrs. A. R. Waddell (H.T.).**—Buds coppery yellow, opening to large cupped blooms of bronze, pink, and apricot, with a delicious perfume. Free-flowering. Growth very robust and branching. A fine bedding Rose.
- Mrs. Bryce Allan (H.T.).**—Bright carmine rose. Large blooms of good form, freely produced. Growth very strong. One of the most highly perfumed Roses we have.
- Mrs. Charles E. Russell (H.T.).**—Rosy carmine, deepening to rosy scarlet in centre. Flowers of fine globular form, large and fragrant. Growth sturdy and erect.
- Mrs. C. V. Haworth (H.T.).**—Buds cinnamon apricot, opening to large highly perfumed blooms of a delicate biscuit buff, zoned and shaded with primrose and rose. Growth vigorous and erect.
- Mrs. David McKee (H.T.).**—Clear creamy yellow. Flowers of great substance and splendid form. Growth strong.
- Mrs. Foley Hobbs (T.).**—Delicate ivory white, sometimes prettily tinged with pink on the edges of petals. Growth robust and vigorous. An exhibition Rose of little use for garden display.

Mrs. Bryce Allan is worth while for its perfume alone.

Polyantha Rose
GOLDEN SALMON

The most distinctive of all these Miniature Roses.

Price 1/9 each, 18/- per dozen.

For massed effect plant 2 feet apart.

Rose—SHOT SILK

A vigorous and richly-coloured Rose that should be in every garden.

Bush plants, $1/9$ each ; Three-quarter Standards, $3/6$.

New Australian Climbing Rose

Countess of Stradbroke (H.T.). (Alister Clark, 1928).—A vigorous growing free-blooming climbing Rose of exceptional merit, and worthy in every respect of a position beside varieties like Black Boy and Miss Marion Manifold. The flowers are large, full (averaging 40 petals), and of good shape, whilst in addition they possess a full, rich fragrance of the sweet or damask type. The colour is a rich, dark, velvety crimson of a particularly vivid shade, and this brilliancy

is maintained for a long period. It is only on rare occasions that any trace of blueing is evident, and in respect of colour this variety is quite on a par with Lord Charlemont and Etoile de Hollande. As an extra quality this variety has lovely foliage, and the young shoots are a picture, the reddish-brown leaves harmonising beautifully with the dark green of the older growth.

This variety is a credit to Australian Rose growing, and it is sent out with every confidence as a particularly fine novelty. Price, 1/9 each (climbing plants only).

BUSH ROSES

Showing the vigorous branching roots of our yearling Roses, as produced at our Greensborough Nursery.

DWARF OR BUSH ROSES.

- Mrs. G. A. Van Rossem (H.T.).**—The flowers are heavily flamed and shaded dark orange and apricot on a dark, golden yellow ground, a combination of colours not previously existing in any Rose. The large full and beautifully-formed flowers are carried on stout rigid stems, and open freely at all times. Growth vigorous and upright, with bronzy green leathery foliage.
- Mrs. George Shawyer (H.T.).**—Clear brilliant rose. Long slender finely formed buds, opening to very large, perfectly-formed flowers. Growth vigorous and free-flowering.
- Mrs. Harold Brocklebank (H.T.).**—Creamy white, with buff centre, base of petals soft golden yellow. Blooms large, perfectly formed, and sweetly perfumed. Growth strong.
- Mrs. Herbert Stevens (T.).**—Clear white, with pale lemon, shading in centre. Buds long and pointed, opening to blooms of perfect shape. Growth very vigorous and free-branching.
- Mrs. H. Morse (H.T.).**—Silvery rose pink, with pencillings of a deeper shade, blooms of great depth and substance, moderately fragrant. Growth tall and branching, very free-flowering.
- Mrs. Henry Winnett (H.T.).**—Dark crimson, well shaped, and very fragrant, free-flowering. Growth strong and vigorous, blooms held erect on stiff upright stems. A Rose that will be in great demand when well known.
- Mrs. H. R. Darlington (H.T.).**—Creamy white blooms of enormous size and faultless form, on long rigid stems. A good free grower.
- Mrs. MacKellar (H.T.).**—Delicate light yellow, almost cream buds, of perfect form, opening to semi-double fragrant flowers. A beautiful Rose in the bud stage. Growth fairly strong.
- Mrs. Philip Russell (H.T.).**—Rich crimson scarlet, at times shading to almost black. A decorative Rose of semi-double formation, with attractive foliage. Strong, vigorous, and healthy grower. An ideal Rose for bedding.
- Mrs. R. B. Molony (H.T.).**—Brilliant carmine red. Flowers full and well formed, with beautiful reflexed petals, stems long and strong, holding the flowers erect. Growth strong and spreading.
- Mrs. R. D. McClure (H.T.).**—Glistening salmon pink, free and constant. Large full flowers of exquisite form. Growth vigorous and free.
- Mrs. Redford (H.T.).**—Bright orange and apricot, perfectly-shaped blooms, very lasting and fragrant. A splendid decorative variety of strong, upright growth, with beautiful glossy foliage.
- Mrs. S. Paton (H.T.).**—Brilliant orange scarlet carmine, without any variation. The orange scarlet is very pronounced. Flowers are full, fairly large, and of fine form. A fine bedding Rose 2/6
- Mrs. S. W. Burgess (H.T.).**—Apricot yellow, with deeper tones at base of petals. Nicely shaped full flowers, tea scented. Growth strong and vigorous, with stiff upright stems.
- Mrs. Theodore Roosevelt (H.T.).**—Creamy white, shading to blush rose at centre, blooms large and full. A fine exhibition variety. Growth strong.
- Mrs. W. C. Egan (H.T.).**—Deep flesh pink, with interior of a lighter shade of soft pink, with golden glow at base of petals, slightly fragrant. Blooms long and beautifully shaped. Growth very vigorous. A Rose that is at its best during the Summer months.
- Nellie Parker (H.T.).**—Pale creamy white, with deep cream centre, and flushed blush at tips of petals. Flowers large, full, and of beautiful form. Growth vigorous and upright.
- Norman Lambert (H.T.).**—Golden yellow, shaded terra cotta. Flowers large, full, and of perfect form, carried erect on stout stems. Growth strong and upright, with fine dark foliage.
- Odette Foussier (H.T.).**—Old rose, suffused with salmon, the inside of the petals shaded yellow. Fine long buds carried erect on strong stems. Sweetly perfumed. Growth vigorous.
- Old Gold (H.T.).**—A beautiful, almost single, Rose of a vivid reddish orange, shaded coppery red. Very useful and beautiful in the bud stage. Growth very vigorous.
- Ophelia (H.T.).**—Palest salmon pink, shaded with apricot in the centre. Flowers of good form on strong rigid stems, and with a delicious perfume. Growth very strong and erect.
- Papa Gontier (T.).**—Rosy crimson, buds long, clear, and handsome. Excellent for cutting. An old variety that still finds favour.
-

A golden yellow of great worth—Norman Lambert.

DWARF OR BUSH ROSES.

- Patience (H.T.).**—The colour in the young state is scarlet carmine lake, opening to orange scarlet and carmine lake, with deep orange at base. The colours shaded and mingled in a manner impossible to describe. Flowers are large, full, and of perfect form, carried on long stiff stems. Growth free, upright, and bushy, throwing shoots out in all directions. An ideal garden and exhibition Rose.
- Peggy Bell (H.T.).**—A beautiful Rose of fine substance and distinct colouring, perhaps suggesting Betty Uprichard, but is more free and robust in habit. It is ever blooming, and makes a fine large bush, while the flower lasts well when cut 2/6
- Phoebe (H.T.).**—Buds long and pointed; semi-double flowers of perfect form, with nicely reflexed petals. The colour is creamy white, slightly deeper in the centre.
- Pink Pearl (H.T.).**—Deep rose pink, with salmon base. Handsome, sweetly scented, full flowers. Growth vigorous and free-branching.
- Prince Camille de Rohan (H.P.).**—Deep velvety crimson maroon, very fragrant. A very old variety that must still be included on account of its popularity, deep colouring, and fragrance.
- Radiance (H.T.).**—Carmine pink, opening to well-formed globular flowers, with lighter tints on the reverse of the petals. Very fragrant. Growth very strong, with fine foliage.
- Rapture (N.T.).**—A sport from Ophelia, with a very fine colour. A great improvement on Madame Butterfly, and all sports of that range of colouring. It is intensely brilliant in its vivid shades of bright apricot, coral pink, rose, and gold. Has more petals than Ophelia and produces flowers more freely.
- Red Letter Day (H.T.).**—Brilliant scarlet-red buds, opening to almost single flowers of fair size, and produced in great profusion throughout the season. Growth very strong and branching. An excellent Rose for massing or hedge making.
- Red Radiance (H.T.).**—An even better Rose than its parent Radiance, bearing large globular cerise-red blooms on strong erect stems. Very free and vigorous.
- Rev. F. Page Roberts (H.T.).**—Rich yellow stained in the bud and outside of blooms with buff markings. Large, sweetly perfumed, well-formed blooms. A vigorous yellow Rose of strong upright growth, with healthy foliage.
- Rhea Reid (H.T.).**—Cerise red, blooms freely produced, large, full, and of good shape. Sweetly perfumed. A good garden Rose.
- Richard E. West (H.T.).**—Cadmium yellow, shading paler on reflex. Blooms large and full, with high pointed centres. Growth robust and branching.
- Rose Berkeley (H.T.).**—The colour is deep, rosy salmon pink, suffused orange, and running to an orange base. Flowers large, full, and beautifully shaped, with high pointed centre, and of exhibition size and quality. Habit of growth very distinct, with unusual freedom and vigour. Flowers freely and continuously. Foliage large dark green and mildew-proof 2/6
- Rose Hill (H.T.).**—Sport of Columbia. Bud very large, long pointed. Flower large, double, full, high centred, and a very pleasing shade of deep pink. Very fragrant, borne singly on long stems. Foliage sufficient, large, rich green disease-resistant, few thorns. Growth vigorous and upright. Profuse bloomer 2/6
- Rose Marie (H.T.).**—Long buds of perfect shape, opening to full flowers of an even shade of clear rose pink. Free-flowering, and of good growth, with wonderful fragrance. A Rose that will give satisfaction in any garden.
- Roselandia (H.T.).**—Rich apricot yellow, shading paler on the edges of petals. An improvement on Golden Ophelia, from which it is a sport, being much deeper in colouring. Growth strong, with good foliage.
- Sallie Lewis (H.T.).**—Apricot, shaded creamy white. Very large full flowers of perfect shape, opening freely. Growth vigorous and free-flowering. A really fine Rose.
- Salmon Spray (H.T.).**—Semi-double, rich salmon pink with carmine reverse, borne in clusters of up to 20 flowers. Very free-flowering and vigorous. A fine bedding Rose that could be used to advantage with the Hybrid Polyantha type.
- Sensation (H.T.).**—Crimson red, shaded deeper crimson, quite distinct from any other dark red Rose. Buds long and pointed, flowers large and freely produced. Sweetly perfumed. Growth vigorous, with strong stems and heavy luxuriant foliage.
- Shot Silk (H.T.).**—Coppery rose, flushed and overshot with apricot and yellow. Beautifully formed buds, opening to large cup-shaped richly-perfumed blooms. Growth strong. A Rose of real beauty and charm.

Peggy Bell is quite the best Australian raised garden Rose.

DWARF OR BUSH ROSES.

- Sir David Davis (H.T.).**—Deep glowing crimson, of an even shade throughout, running to light yellow at base. Flowers large, full, and pointed. Growth vigorous and upright, very free-flowering, and strongly perfumed.
- Souvenir de Clermonde (H.T.).**—Clear salmon pink, deeper in the centre, shaded with yellow. Of very vigorous and erect branching habit, with large glossy foliage. Buds oval, carried on stiff stems, opening to large globular semi-double sweetly-scented blooms.
- Souvenir de Claudius Pernet (Pern.).**—Sunflower yellow, deepening in centre and paling towards the edges of petals. Large beautifully-formed flowers carried on stiff stems. Growth strong and erect, glossy foliage.
- Souvenir de Georges Pernet (Pern.).**—Brick red buds, opening to terra-cotta pink blooms of immense size, very double and deliciously fragrant. Growth dwarf and stocky. A beautiful Rose for bedding.
- Souvenir de G. Beckwith (Pern.).**—Shrimp pink, tinted chrome yellow. Flowers very large and double, moderately fragrant. Growth erect and branching; very productive. A Rose of similar colouring to Lyons, but of more certain growth.
- Souvenir de H. A. Verschuren (H.T.).**—Light yellow, deepening to orange at the centre. Flowers of perfect form and sweetly scented. Growth strong and productive. A Rose of similar habit to Sunburst, but with richer and more reliable colouring.
- Souvenir de M. de Zayas (H.T.).**—Vivid carmine, with deeper shadings. Blooms very large and perfectly formed, buds long and pointed. Growth strong.
- Souvenir de R. B. Ferguson.**—Buds cerise and apricot, opening to large massive full blooms of a rich shell pink, with yellow base. A beautiful Rose of strong growth.
- Souvenir de Stella Gray (H.T.).**—Deep orange, with splashes of apricot, salmon, and crimson. Flowers of medium size, perfectly formed, and produced in great freedom. Growth free and bushy.
- Sunburst (H.T.).**—Cadmium yellow, with apricot centre, high-pointed buds. A free-flowering and vigorous grower. Colour is inclined to vary.
- Sunny South (H.T.).**—Pink, flushed with carmine on a yellow base, a most charming combination. A decorative Rose of vigorous growth, with handsome foliage, and long upright stems. Perhaps the best of all Roses for hedge making, or as a tall standard for the centre of beds it is better than most others.
- Sunstar (H.T.).**—Orange and yellow edged, veined and splashed with vermilion. Very free and vigorous, and sweetly scented. A distinct Rose, very beautiful in the bud and half-opened stage.
- The Queen Alexandra (H.T.).**—Intense vermilion, deeply shaded old gold on reverse of petals. A remarkable and pleasing colour combination. Grows well as a standard.
- Trilby (H.T.).**—A Rose of exquisite formation, rivalling the famous Madame Abel Chatenay. The colour is a rich salmon of a most captivating shade. This should prove a favourite for decorative work 2/6
- Una Wallace (H.T.).**—Soft cherry rose, without shading. A beautifully formed Rose of great depth and substance. Sweetly perfumed.
- Ville de Paris (Pern.).**—Clear Sunflower yellow, shaded orange in the centre. Flowers carried on long stiff stems. Growth vigorous and erect, with deep glossy foliage.
- W. F. Dreer (Pern.).**—Golden yellow, shaded peach and old rose. A really lovely semi-double variety of splendid growth, and very free-flowering. Strongly perfumed.
- Warrior (H.T.).**—Buds blood red, opening to large double flowers of a vivid scarlet crimson, with broad petals. Growth strong and free-flowering.
- White Ensign (H.T.).**—Pure white, flushed delicate cream at base of petals. Flowers of medium size, full, and well shaped, carried upright on rigid stems. Growth very strong and bushy.
- White Maman Cochet (T.).**—A white form of Maman Cochet, but often flushed with pink on the outer petals. Growth strong and free-flowering.
- Wilhelm Kordes (H.T.).**—Capucine red on a golden yellow ground, gradually toning to golden yellow, striped with red when expanding, fairly full, of good form, carried on stiff stems.
- William E. Nickerson (H.T.).**—A fine Rose that is not well described by the colour description of glowing orange cerise. Very attractive and distinct. Fine sturdy grower, well-shaped flowers. This variety must not be confused with Mrs. W. E. Nickerson 2/6
- Yvres Druhen (H.T.).**—Dark velvety red, at times almost black. Flowers fairly full and highly perfumed. Growth very branching.

Sunny South makes a picturesque hedge.

Polyantha Roses.

Very Dwarf Miniature Varieties for Bordering and Massing.

These charming little Roses are of very dwarf and compact growth, seldom exceeding 18 inches in height. They are truly ever-blooming Roses, being scarcely ever without flowers. The individual blooms are small, but are produced with the greatest freedom in sprays or trusses.

These Roses require very little in the way of pruning. The cutting away of the old flower stalks and any dead or useless wood is all that is required.

The Polyanthas cover a very wide range of flower-forms, sizes, and shades of colour, providing ample opportunity for discriminating selection.

PRICES :

All varieties not priced are 1/9 each.
Six or more plants at the rate of 18/- per doz.

Aennchen Muller.—Bright rose pink, with sharply quilled petals, borne in splendid trusses. Strong bushy plants 2 feet high. Almost always in bloom.

Baby Betty.—The colour in bud stage is yellow with a ruddy tint, opening to a delicate clear rose with pale centre, which colour it retains until the end. Free-flowering and fragrant. Foliage dark green and finely serrated, adding beauty to the plant. Growth upright, vigorous, and compact 2/6

Borderer.—Pink, shaded with copper and amber. Very dwarf, spreading habit, with good foliage and double deliciously perfumed blooms. A distinct type very suitable for low borders.

Britannia.—A wonderful free-flowering single Polyantha, producing large-branching trusses, many trusses carrying 30 to 40 flowers. Colour rich crimson, with white centre and yellow stamens. Striking and effective. Growth is vigorous and erect 2/6

Cecile Brunner.—Light pink, with yellow base. Small exquisitely-formed buds. Taller in growth than most Polyanthas, and more suitable for small hedges.

Charmaine.—Pink, tinged salmon; when fully open a pleasing shade of pink. Flowers are large and double, full, and free. Borne in long arching sprays, which may be used very effectively for decorative purposes. Growth is vigorous 2/6

Coral Cluster.—Small pale coral pink flowers in very large trusses. Very free-flowering. Growth and habit much the same as Orleans.

Ellen Poulsen.—Bright rose pink, with cream base. Rather large, full, sweetly-scented flowers, borne profusely in large compact clusters. Growth strong; about 24 inches.

Else Poulsen.—Clear rose pink, unopened buds slightly darker. Free and continuous flowering. A charming bedding variety that can be associated with Ellen Poulsen.

 **Franc Leddy.**—Clear carmine lake, with pale centre, very shapely flowers produced in profusion. Growth dwarf and compact as in Orleans.

George Elger.—Golden coppery yellow, passing to pale yellow when expanded. Graceful sprays. Growth moderate.

Massed effects of Polyantha Roses make a wonderful display.

POLYANTHA ROSES.

GLORIA MUNDI.—One of the most striking novelties for many years, and one that will before long outplace all Roses of this class and colouring. The neat, full, double flowers composed of many small petals are of a most brilliant orange scarlet, and are borne in clusters on dwarf, compact bushy plants. Ideal for bedding or bordering.

Price, 4/- each ; or 42/- per dozen.

Golden Salmon.—Intense fiery golden salmon. Flowers of medium size, produced in large full trusses. Growth strong and bushy, of medium height. A new variety of wonderful colouring that promises well.

Gwyneth.—Buds canary yellow, lined crimson. The expanded semi-double flowers are clear sunflower yellow, paling to lemon with age. A distinct and pretty variety. Growth bushy.

Ideal.—Small dark scarlet blooms, shaded with black, borne with tremendous profusion in immense compact bunches. Darker and more double than Miss Edith Cavell, and of the same habit of growth.

Johanna Tantau.—A charming shade of bright rose pink, with golden sheen on the petals when first open. Strongly scented. Of free-flowering and dwarf habit. Large, full, double flowers 2/6

Joseph Guy.—Clear red, with light base. Flowers very large for this type. Semi-double, and produced in large trusses. Growth dwarf and bushy.

Katherina Zeimet.—Clear pure white, flowers in large clusters, and fragrant. A very fine variety for massing where this colour is wanted.

Kersbergen.—Deep rich velvety crimson, double flowers produced freely in large trusses. Habit as Orleans.

Kirsten Poulsen.—Single, bright scarlet, with golden anthers, trusses carried erect on strong stiff stems. A free and continuous flowering variety with good foliage. Growth and habit as Orleans.

Lady Reading.—Bright red flowers in large clusters, the individual blooms large and full, with a faint perfume. Growth vigorous and bushy, very floriferous. A true red sport of Ellen Poulsen, especially recommended for planting with that variety.

Leonie Lamesch.—Bright coppery red, with yellow centre. Flowers medium size, double, and borne in small clusters. Plant rather tall and not quite as free-flowering as others of this class.

Locarno.—Rich orange scarlet with pale base. A very striking and attractive colour. Very free-flowering. Growth as Orleans.

Magnifique.—The beautifully-fringed double blooms are a pleasing shade of bright pink, and produced in bold trusses. Habit erect and bushy.

Mamam Turbat.—China rose, shading to lilac, semi-double small rounded flowers in large clusters. Growth bushy, 15 to 18 inches, with good foliage. Always in flower.

Miss Edith Cavell.—Small semi-double flowers of brilliant scarlet red, shaded darker, produced in big, compact trusses. Growth sturdy and branching, of the same habit as Orleans.

Mrs. A. Hudig.—A charming cluster of brilliant orange scarlet. Very free-flowering and particularly attractive 2/6

Mrs. W. H. Cutbush.—Bright rosy red, fading to deep pink, blooms produced in very large trusses. A splendid perpetual flowering variety of dwarf bushy habit. Orleans type.

Orange King.—Deep orange yellow. A charming and distinct new colour in this class. Flowers very small, produced freely in large trusses. Growth dwarf and compact.

Orleans Rose.—Flowers small semi-double, and brilliant light red, suffused rose, with a whitish centre. Blooms without cessation in big, compact trusses. Growth strong and branching, about 18 inches.

Perle d'Or.—Very pretty nankeen yellow, with orange centre. Small well-formed flowers of the Cecile Brunner type. Free-flowering and rather tall growing.

Golden Salmon has delightful colouring.

POLYANTHA ROSES.

Petit Constant.—Deep coppery orange, small flowers in large upright clusters. A very pretty variety that is always in flower. Medium growth.

RENONCULE.—Clear rose pink, shading lighter at base of petals. Flowers cup shaped, reminding one of the turban *Ranunculus*, hence the name. Trusses large, composed of 25 to 50 blooms. Very attractive. Growth dwarf and branching.

Rodhatte.—Large semi-double flowers, bright cherry red, borne in large loose trusses. Growth dwarf and bushy, with large foliage. Very attractive.

Rufus.—Pure intense crimson, flowers double, produced in bold upright trusses. A pure self colour that does not burn. Growth free and branching. Orleans type.

Salmonea.—Pale salmon, paling at base. Flowers small and very double, particularly attractive in the bud and half-opened stage. Growth dwarf.

Seduction.—A lovely peach blossom pink; large double flowers that last well. Flowering in clusters of 50 to 60 flowers. Of dwarf bush habit 2/6

Superba.—Rich deep crimson, the flowers do not fade, but deepen with age. Flowers composed of a remarkable number of florets; without doubt the most double of all Polyantha Roses. Growth dwarf and bushy, 15 to 18 inches. Highly recommended.

Sunshine.—An attractive sweetly-perfumed dwarf spreading variety. Bright orange in the bud stage, opening to a clear shade of salmon orange and fading with age to pale flesh pink.

Suzanne Turbat.—Coral red, shaded bright pink. Very free-flowering.

Teschendorff—Jubilee Rose.—This may be described as an improved large double Orleans Rose, but the colour is better and more attractive. Good in every respect 2/6

Tip Top.—Well-shaped buds and reflexed blooms of coppery yellow and pink, tipped with carmine. Growth dwarf and free-flowering.

Triomphe Orleanais.—Bright cherry red, well-filled flowers, produced freely in large trusses. Growth strong, same habit as Orleans.

Verdun.—Bright cherry scarlet, shading to carmine. Flowers in large erect trusses, freely produced. Growth dwarf and compact.

Roses in Pots

WE GROW a collection of the best varieties only, in pots for Summer Planting; these established plants can be planted out with safety at any time.

Prices:

Bushes, Climbers, and Polyanthas 24/- per doz.

Three-Quarter Standards 48/- per doz.

Weeping Standards Prices on Application.

Sunshine—a good yellow, which is rare in Polyanthas.

Weeping Standard Roses

These Weeping Tree Roses are very useful and ornamental when planted as single specimens in lawn beds, shrubberies, or as central plants in rose beds. They have a natural pendulous habit, and are most attractive when trained on wire frames and allowed to fall to the ground at a distance of 3 or 4 feet from the stem. The varieties we grow are the only ones that are suitable for this purpose, most other Roses being too erect in growth to produce the required effect.

Prices:

4 ft. - - - 10/6 each.

5 ft. - - - 25/- each.

6 ft. (Very Scarce) £2/2/- each.

American Pillar.—Single deep pink, with masses of yellow stamens. Rich glossy foliage. The most satisfactory grower of all.

Bushfire.—Bright rich crimson with yellow base.

Coronation.—Bright crimson, shaded scarlet and splashed with small white streaks. Double.

Dorothy Perkins.—Rose pink flowers, double, and produced in large clusters.

Excelsa.—Bright scarlet crimson, very double.

Lady Gay.—Deep rose double flowers in large trusses, of same growth and habit as Dorothy Perkins.

ORDER EARLY, and state if we may replace sold-out varieties with others equally as good. This saves delay by correspondence. It greatly facilitates despatch if orders are received early, and will save disappointment.

Weeping Standards require extra stout stakes.

General List

of

Climbing, Rambling and Pillar Roses.

Prices:

All varieties not priced are 1/9 each.
Six or more plants at the rate of 18/- per dozen.

Achievement (Wich. Ramb.).—An entirely new break in Climbing Roses. The foliage is variegated, and is as ornamental as a Japanese Maple. Flowers freely produced, are deep rose pink, shaded coral.

American Pillar (Wich. Ramb.).—Single, deep pink, with masses of yellow stamens, borne in clusters. Rich glossy foliage.

Augusta Kordes (Poly.).—This is a strong climbing form of Lafayette. It has much the habit of Paul's Scarlet Climber, with the true Lafayette colour, and gives a good second crop of bloom in Autumn 2/6

Banksia Alba.—Double white, small flowers in clusters in Spring. Strong growing.

Banksia Lutea.—Double yellow, habit and growth same as Banksia Alba.

Black Boy (H.T.).—Deep crimson, shaded with blackish maroon overlaying fiery scarlet. Free-flowering and very vigorous.

Bonfire (Wich. Ramb.).—This dazzling scarlet Rambler comes into flower early. Very vigorous, with long clusters of 20 to 25 double flowers 2/6

Breeze Hill (Wich. Ramb.).—This variety is peculiar among Climbing Roses in the enormous size of its individual flowers, which carry from 50 to 60 petals. Colour deep cream, with tints of pink and salmon. Very strong and vigorous climbing habit.

Bushfire (Wich. Ramb.).—Bright rich crimson, with yellow base. Quite the brightest and best of the Wichuraiana varieties.

CHAPLIN'S PINK CLIMBER (H. Wich.).—Large trusses of semi-double flowers of striking pink colour. Handsome glossy foliage. Strong and vigorous grower.

Price, 4/- each.

Climbing Belle Seibrecht (H.T.).—Bright rosy pink, large and beautifully formed. Very free-flowering.

Every garden needs Climbing Roses.

CLIMBING ROSES.

- Cl. Betty (H.T.).**—Coppery rose, shaded yellow. A grand sport of this popular old variety **2/6**
- Climbing Caroline Testout (H.T.).**—Bright warm pink, large globular blooms. Very vigorous and free.
- Climbing Chateau de C. Vougeot (H.T.).**—Glowing red, deeply shaded black and scarlet, very double and intensely fragrant. A strong vigorous climber, flowering continuously throughout the year.
- Climbing Columbia (H.T.).**—Lovely bright pink, sweetly scented, flowers of exquisite shape, deepening in colour as they expand. A vigorous climber with fine foliage.
- Climbing Constance (Pern.).**—A climbing sport of the dwarf variety, identical in every respect but growth. The golden yellow flowers will be a new shade in climbing varieties **2/6**
- Climbing Frau Karl Druschki (H.P.).**—Magnificent snow-white blooms, with deep firm petals. Growth vigorous, but not of good climbing habit.
- Climbing Hadley (H.T.).**—The flowers are identical with the parent in rich crimson colouring and sweet fragrance, while the even climbing habit shows the sport is firmly fixed. Highly recommended **2/6**
- Climbing Gen. McArthur (H.T.).**—Bright scarlet crimson blooms, of nice size and shape, delightfully perfumed, and produced freely on long erect stems. Very vigorous.
- Climbing George Schwartz (T.).**—Bright canary yellow, very rich in colour. A doubtful climber in most situations, for which reason we prefer Climbing Lady Hillingdon.

CLIMBING GOLDEN EMBLEM (Pern.).—A vigorous climbing sport from the dwarf form. The growth is very strong and healthy, with long climbing shoots. This should prove to be one of the best Climbing Roses we have, and fill a long-felt want for a good yellow Climbing Rose.

Price, 4/- each.

- Climbing Golden Ophelia (H.T.).**—Golden yellow, paling slightly on the outer petals. Flowers medium size. A vigorous climber, and one of the best yellows we have.
- Climbing Hoosier Beauty.**—Deep velvety crimson, well formed and deliciously fragrant blooms. A strong vigorous climber, producing well-shaped flowers on long stems.
- Climbing Irish Fireflame (H.T.).**—Large single blooms, orange crimson, shaded gold and sweetly fragrant. A strong vigorous climber with pleasing foliage.
- Climbing K. A. Victoria (H.T.).**—Creamy white, slightly shaded lemon. Large, full, and well formed. Growth strong.
- Climbing Lady Greenall (H.T.).**—Creamy white, shaded orange saffron and pink. Beautifully-formed blooms with high centres. Strong climbing habit.
- Climbing La France (H.T.).**—Silvery rose, with pale lilac shading. We have a strong vigorous climbing strain of this old favourite.
- Climbing Lady Ashtown (H.T.).**—Satiny buds, and blooms of deep shining pink, with a yellow glow at base of petals, fragrant. Growth strong.
- Climbing Lyon Rose (H.T.).**—Shrimp pink, shaded with salmon. Large sweetly-scented globular blooms. Strong climbing habit.
- Climbing Laurent Carle (H.T.).**—Gigantic oval buds and blooms of deep carmine crimson, perfectly formed and perfumed. A free-flowering and vigorous grower.
- Climbing Los Angeles (H.T.).**—Bright flaming salmon, shaded with apricot. The flowers are attractively reflexed and pointed. Strong climbing habit.
- Climbing Lady Hillingdon (T.).**—Deep apricot yellow, blooms of medium size, borne in the greatest profusion. Growth and foliage perfect.

Climbing Chateau de C. Vougeot flowers all the year.

CLIMBING ROSES.

- Climbing Madame A. Chatenay (H.T.).**—Pale salmon pink, with deeper centre, well-shaped blooms of medium size on long stems. A strong rampant grower with good foliage.
- Climbing Madame Butterfly (H.T.).**—Salmon flesh, shaded rose, with apricot and gold base. Blooms beautifully shaped and richly perfumed. A strong vigorous climber with perfect foliage.
- Climbing Madame S. Weber (H.T.).**—Light rosy salmon, with deeper centre. Blooms freely produced, are large and of perfect form. Strong climbing habit.
- Climbing Maman Cochet (T.).**—Carmine pink, suffused with salmon yellow, blooms of immense size, with high pointed centre. Very strong climbing habit.
- Climbing Madame E. Herriot (Pern.).**—Buds coral red and orange, opening to large moderately full blooms of brilliant orange red and salmon. One of the most brilliantly coloured Roses we have. Strong climbing habit and very free-flowering.
- Climbing Mrs. Geo. Shawyer (H.T.).**—A strong climbing sport from this popular Rose, producing its well-formed pink blooms in quantities
- Climbing Mrs. Herbert Stevens (H.T.).**—Clear white, with pale lemon, shading in centre. Buds long and pointed, opening to blooms of perfect shape. A vigorous branching climber of free-flowering habit.
- Climbing Ophelia (H.T.).**—Palest salmon pink, shaded with apricot in the centre. Flowers of good form on strong rigid stems. A moderate climber of free-flowering habit, suitable for pillars.
- Climbing Papa Gontier (T.).**—Rosy crimson, buds long, clean, and handsome, excellent for cutting. A strong vigorous climber.
- Climbing Radiance (H.T.).**—In so many countries of the world Radiance is the most popular Garden Rose, and now a real climbing sport is in commerce, we feel sure this new variety will become equally popular. Very vigorous grower. In all respects like its parent.
- Climbing Red Radiance (H.T.).**—A sport from the very popular Red Radiance. Of cerise red, which is very telling under artificial light, and particularly good in Autumn and Winter. A vigorous climbing sport. Supplying a new colour in Climbing Roses 2/6
- Climbing Rose Marie (H.T.).**—A vigorous climbing sport of Rose Marie; is one of the most valuable acquisitions for years. Its form, its delightful colouring and rich sweet fragrance will ensure it a place in the very front rank of climbers. Most vigorous growth and clean mildew-proof foliage 2/6
- Climbing Souv. de Claudius Pernet (Pern.).**—This valuable climbing sport will be extremely welcome, as it provides a new break in climbing varieties. The double rich Sunflower yellow blooms are in a class by themselves, and will provide a gay show 4/-
- Climbing Souv. de Georges Pernet (Pern.).**—A vigorous climbing sport of this most popular Rose, producing its sweetly-scented terra-cotta pink blooms with great freedom 2/6
- Climbing Sunburst (H.T.).**—Cadmium yellow, with apricot centre, high pointed buds. A free rampant grower, with good foliage.
- Climbing Sunstar (H.T.).**—Orange and yellow edged, veined and splashed with vermilion, very free-flowering, and sweetly perfumed. A moderate climber, very suitable for pillars.
- Climbing White Maman Cochet (T.).**—A white form of Maman Cochet, but often flushed with pink on the outer petals. Free climbing habit.
- Climbing Wilhelm Kordes (H.T.).**—A grand climbing form of this very popular Rose, which may be relied upon to become a favourite. Colour is capucine red on a yellow ground, gradually toning to yellow, striped red 2/6
- Cloth of Gold (N.).**—Pale yellow, deepening in centre. A free-flowering vigorous climber of spreading habit, with fine foliage.
- Countess of Stradbroke (H.T.).**—A vigorous-growing, free-blooming Rose of exceptional merit. Flowers are large and of good shape, possessing full rich fragrance. Colour rich dark velvety crimson, of particularly vivid shade. Has very lovely foliage, and is a distinct acquisition.

Climbing La France has new climbing life, but retains its sweet perfume.

CLIMBING ROSES.

- Dorothy Perkins (Wich. Ramb.).**—A delightful shade of rose pink, flowers double and produced in large clusters in early Summer. A strong spreading Rambler of free-flowering habit.
- Dr. Huey (Wich. Ramb.).**—Semi-double rather large flowers of deepest crimson maroon, shaded black, with golden anthers. Flowers produced very freely in large clusters. Growth similar to Paul's Scarlet, and like that fine Rose, best as a pillar.
- Excelsa (Wich. Ramb.).**—Bright scarlet crimson, flowers very double, and produced in large clusters. Foliage thick and glossy. One of the finest of the rambling Roses.
- Flying Colors.**—A hybrid from Rosa Gigantea, of vigorous climbing habit. Flowers large, single, and deep rosy cerise. Early flowering.
- Fortuniana.**—Medium-sized creamy white fragrant flowers, freely produced in early Spring. A rampant grower of similar habit to the Banksia Roses.
- Golden Vision (H.T.).**—A strong vigorous climber, with distinct bright green foliage, and attractive yellow flowers come in the greatest profusion in Spring. A seedling from Marechal Niel, retaining the delightful perfume of that old favourite.
- Gruss an Teplitz (H.T.).**—Brilliant crimson, with velvety shadings, medium-sized very fragrant blooms, always in flower. Growth moderate. A fine Pillar Rose.
- Harbinger.**—A very early Spring-flowering hybrid from Rosa Gigantea. Covered with large single flowers of a pure refined pink.
- Hiawatha (Wich. Ramb.).**—Small single flowers of brilliant carmine, with white eye, and showing yellow stamens. Clusters very large, borne in tremendous profusion in Spring.
- Heart of Gold (Wich. Ramb.).**—Dark purplish crimson, with a white centre and showy golden stamens. Very distinct and beautiful. Large single blooms produced in clusters. Growth very healthy and strong, with good glossy foliage. A very fine Pillar Rose.
- Jessie Clark.**—A large single-flowered hybrid of Rose Gigantea. Clear deep pink, paling towards centre. Large flowers opening in early Spring. A strong rampant grower that requires to grow naturally without any pruning for best results.
- Joyce Fahey (H.T.).**—A strong bush or Pillar Rose of vivid red that does not fade. Flowers similar to Paul's Scarlet, but larger, sweeter, and of softer tone and continuous throughout the season. Foliage healthy and ample, and flowers sweetly scented. 2/6
- Kitty Kininmonth (H.T.).**—Bright carmine rose, large semi-double decorative blooms, with very large petals. Large bright green foliage. A moderate climber most suitable as a Pillar Rose.
- Lady Gay (Wich. Ramb.).**—Small double deep rose flowers in large trusses, of same growth and habit as Dorothy Perkins, but perhaps a little larger and deeper at times.
- Marechal Niel (N.).**—Deep golden yellow, double, and extremely fragrant. A well-known old variety that thrives in a few situations only.
- Miss Marion Manifold (H.T.).**—Rich velvety scarlet, shaded with crimson, flowers very large and full. A free and constant bloomer. Sweetly scented. A strong vigorous climber, one of the best and most popular in our collection.
- Mrs. F. W. Flight (Poly.).**—Deep rose pink, with white eye, large semi-double flowers, produced in trusses. A vigorous grower. At its best when treated as a Pillar Rose.
- Mermaid.**—Single, pale sulphur yellow, with masses of deep golden stamens, which stand out prominently. A hybrid of Rose Bracteata, with good glossy foliage and strong vigorous climbing habit.
- Noella Nabonnand (H.T.).**—Large semi-double, velvety crimson flowers with pale centres. Petals large and firm. Sweetly perfumed. Strong early flowering climber.
- Nora Cunningham (H.T.).**—Flowers large, semi-double, and pure pink. Very decorative. A fine Rose for pillar work.
-

Heart of Gold is one of the best Ramblers we have.

CLIMBING ROSES.

Paul's Scarlet Climber (H. Wich.).—Vivid brilliant scarlet crimson of exceptional merit. Flowers of moderate size, borne most freely in Spring and early Summer. Of moderate growth. One of the most suitable Roses for pillars and pergolas.

Phyllis Bide (Poly.).—Pale gold at base, flushed with carmine pink. Flowers semi-double and produced in large graceful sprays. Growth free and branching. A very fine Pillar Rose.

Queen of Hearts (H.T.).—Pure deep pink, fairly full, sweetly perfumed flowers, continuously in flower. Growth moderate, very useful for pillars.

Royal Scarlet (H. Wich.).—A valuable addition to the red climbers. Free-flowering. After the style of Paul's Scarlet, but the flowers are a shade deeper in colour and a little smaller in size. A fine Pillar Rose.

Scorcher (H.T.).—A vigorous Climbing Rose with rich green foliage and most brilliant semi-double carmine-crimson flowers.

Shower of Gold (Wich.).—Buds golden yellow, opening orange yellow, and paling to creamy white flowers with golden centres. A vigorous rampant grower with beautiful glossy foliage.

Sinica Anemone.—A very beautiful large single-flowering Rose, of light silvery pink, deepening to bright rose at base of petals. Very rampant grower with glossy foliage.

Sinica Alba.—Large single creamy white flowers with golden anthers. Of the same growth and habit as Sinica Anemone.

Souvenir de Leonie Viennot (T.).—Silvery rose, shading to carmine, base of petals canary yellow. A wonderfully free-flowering climber of strong rampant growth with good foliage

Thelma (Wich. Ramb.).—A Climbing Rose of great merit. Colour delicate coral pink, suffused as the flowers develop with carmine red. The flowers are large, with three rows of petals, and are produced in handsome clusters. Stout, almost thornless growth, covered with dark green foliage. A fine Rose for pillars, arches, and pergolas.

Tausendschon (Poly.).—Semi-double bright pink, opening to rosy carmine, shaded with yellow. Flowers produced in large trusses and slightly fragrant. A strong healthy almost thornless climber. Particularly strong as a Pillar Rose.

Traverser (H.T.).—A magnificent Climbing Rose. Particularly vigorous and free from disease. Yellow and cream flowers are profuse in Spring, when the plant is a sheet of bloom 2/6

Veilchenblau (Poly.).—Semi-double, purple Rose, opening steel blue, shaded with dark rose. Large bold trusses. A strong vigorous grower.

Zephirine Drouhin (B.).—Vivid pink well-formed flowers of good shape and size, exquisitely perfumed. Strong almost thornless growth, with deep bronzy foliage.

We have many other Roses in stock, of which we grow only small lots. If we do not list the variety you want, ask us about it, we may have it, or perhaps it has been discarded for something better.

Royal Scarlet is even better than Paul's Scarlet.

Special Collections of Roses.

VARIETIES SPECIALLY SELECTED FOR VARIOUS PURPOSES.

These special collections are made up of strong selected plants that are packed free and forwarded post or freight paid if cash is enclosed with order.

These special concessions do not apply to export orders, which require special packing.

No. 1.

GENERAL GARDEN COLLECTION.

Twenty-four Varieties in Strong Dwarf or Bush Plants.

Price, 30/- ; or Half Collection for 16/-.

Angele Pernet	Lady Hillingdon	Roselandia
Betty Uprichard	Lord Lambourne	Rev. F. Page Roberts
Charles P. Kilham	Mabel Morse	Shot Silk
Columbia	Madame Butterfly	Sunny South
Dame E. Helen	Madame E. Herriot	Souv. de H. A.
Etoile de Hollande	Madame A. Chatenay	Verschuren
Hadley	Mrs. Bryce Allan	Souv. de G. Pernet
John C. M. Mensing	Rose Marie	White Ensign
Lady F. Stronge		

No. 2.

NOVELTY COLLECTION.

Twelve Varieties of Recent Introduction in Strong Dwarf or Bush Plants.

Price, 35/-.

Betty Sutor	George Howarth	Lady Leslie
Christoph Weigand	Gwyneth	Mrs. H. Dowsett
"Daily Mail" Scented Rose	Joanna Hill	Mrs. Sam. McGredy

Announcement !

A copy of our new General List of Trees, Shrubs, etc., will be posted to you immediately on publication at the end of May, 1930.

SERVICE

For forty years we have studied the Nursery business, and in that time have formed connections with the best overseas suppliers. Through these firms, and from our own particular knowledge acquired during years of experience, we are able to give to our clients reliable information on most matters pertaining to horticulture.

To this end we have now opened a

SERVICE DEPARTMENT,

which will handle all inquiries, and supply any information required on garden matters. This service is free, except in such cases where actual expense is incurred, in which instances it will be charged at cost.

For a small commission, we would be glad to obtain seeds or plants or rare or unusual varieties from Continental or American sources, or to indent any specialties required from other markets.

Inquiries by phone or letter will receive our prompt and careful attention if addressed to

HODGINS NURSERIES PTY. LTD.,

Service Dept.,

FU 5270 and FU 5058.

ESSENDON, W.5.

We ask our clients to make full use of this department organised directly for their benefit.

Wholly set up and printed in Australia by
D. W. PATERSON CO. PTY. LTD.,
